Erin Conaway, P.E., LEED AP - BIO

Erin Conaway, P.E., LEED AP is the Intermountain West Regional Engineer for the American Institute of Steel Construction. Erin is based in Phoenix, AZ and represents the Institute in the states of Arizona, Idaho, Montana, New Mexico, Nevada, Utah and portions of Wyoming and Colorado. As a Regional Engineer for the Institute, Erin spends her time working with members of the design and construction community to educate on the advantages of designing and building with structural steel.

Prior to joining AISC, Erin worked for structural engineering consulting firms in various regions of the country including New York City, Colorado and most recently, Arizona. Her past experience encompasses a background involving all design phases and a variety of project types including commercial, renovation/restoration and high-rise residential. Erin is a graduate of the Oklahoma State University Architectural Engineering (Structures) program in Stillwater, OK.

There's always a solution in steel.
